

SAB AG001 - Implementation of the SAB RoP v2022

**Proposal for the Transition of FS.TEC functions into the
new SAB structure based on discussions in Meeting 3 with
industry members**

2023 Mar 3rd

Reminder of key features of the SAB RoP v2022

SAB Sectors & Communities with link to Flight Standards:

Sectors and Communities with direct link to Flight Standards, i.e. governed by Regulations Aircrew and/or Air Operations

Sectors ↓ / Communities →	CA	GA	R	D	ATM/ANS	ADR
Aerospace Medicine	x	x	x	x	x	
Air Sports		x			x	x
Airports	x	x			x	x
Ground handling	x					x
ATM/ANS	x	x	x	x	x	x
Aviation Personnel	x	x	x	x	x	x
Commercial Operators	x		x	x	x	x
General/non-commercial operators		x	x	x	x	x
Maintenance industry	x	x	x	x		
Manufacturers	x	x	x	x	x	x
Non-EU Industry	x	x	x	x	x	
Training Industry	x	x	x	x	x	x

Sectors regulated by Reg. Aircrew and/or Air Operations require coordination

Coordination could be performed in a permanent Activity Group

Flight Standards AG

Flight Standards are

- Regulated in Regulations Aircrew and Air Operations across the Communities CA, GA, R and D and relevant for the Sectors and Technologies
- Rulemaking and Standardisation levels to be discussed, developed and followed up in ONE permanent Activity Group (AG)
- Sustainability and Digitalization are good examples for issues the require coordination efforts
- Flight Standards AG is in line with RoP v2022 Article 12 as it is “of particular importance for the performance of cross-domain work”

Flight Standards Activity Group – Mandate

- Coordinate and conduct bi-annual joint meetings between Aircrew TeB, EASA, EC and Aircrew Experts from the new Communities to enable further improvements in standardization of NAAs (e.g. Examiner Difference Document)
- Promote similar joint meetings between Air Operations TeB, EASA, EC and Air Operations Experts from the new Communities
- Monitor progress of active Rulemaking tasks related to Regulations Aircrew and Air Operations (e.g. RMT.0194 (Instructors), 0196 (FSTDs), 0737 (electr. LIC)....) and coordinate information flow into and between the new Communities
- Coordinate digitalization projects with relevance for Regulations Aircrew and Air Operations with new Communities (e.g. RMT.0737)
- Support transition from Inventory based regulation towards Performance based regulation of Regulations Aircrew and Air Operations

Flight Standards Activity Group – Tasks

- Coordinate Aircrew and Air Operations related issues between all sectors
- Clarify issues within the given framework (FAQ, AMC, GM, Policy, etc.) and escalate to Rulemaking only when necessary
- Assure consistency of application across the EU and the sectors of the communities
- Future proof the Regulations to the developing technologies across all communities
- **Support pan-European interpretation of the applicable Flight Standards Regulations**
- **Interface with Training Activity Group**
 - Coordinate with Training Activity Group concerning amendments of Regulations Aircrew and Air Operations

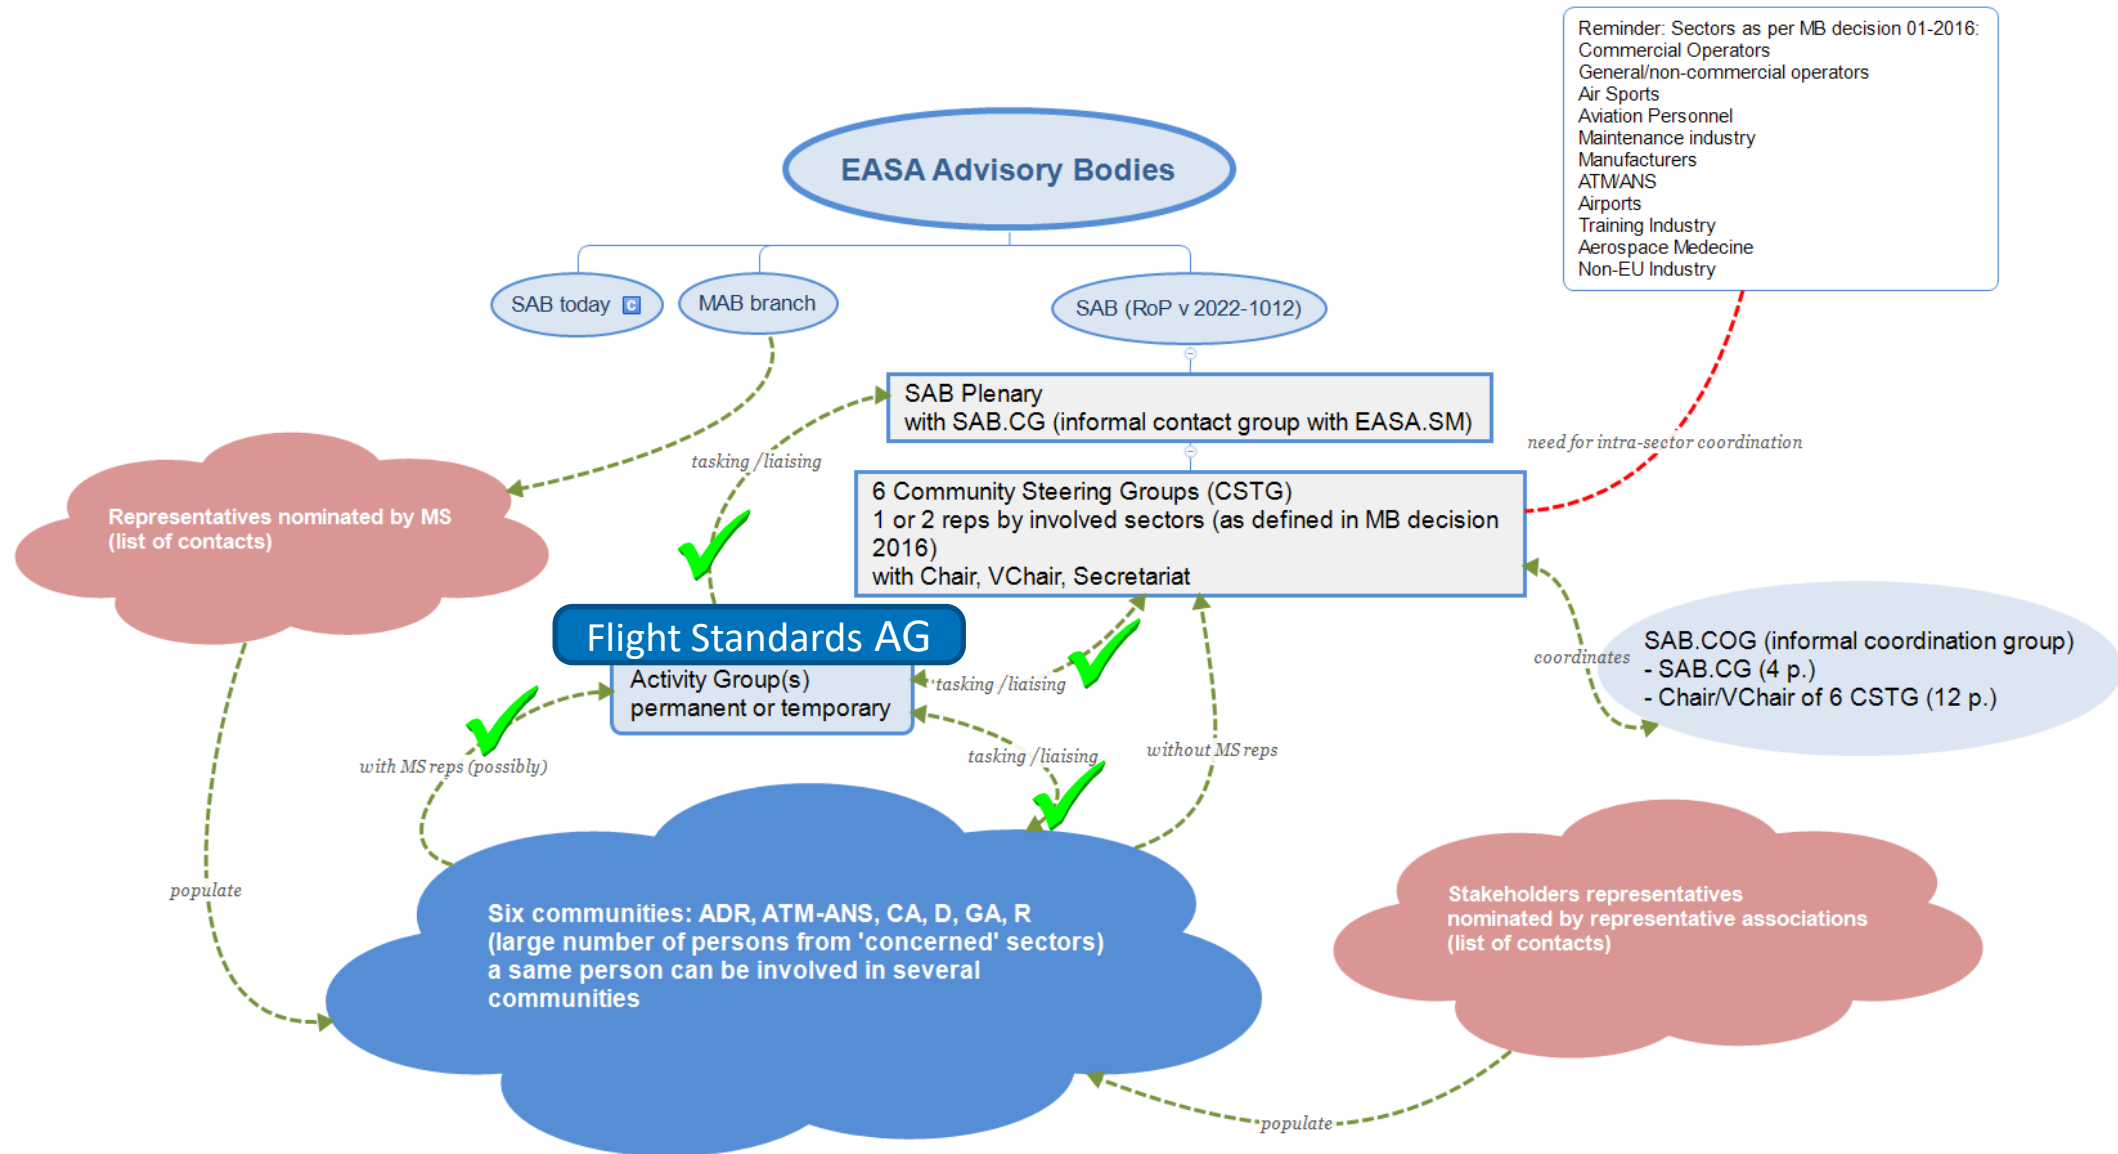

SAB Sectors – Communities – FS.TEC – Flight Standards Activity Group

RoP v2022 - Issue 3 Draft 4

Sector Represented	Communities						FS.TEC	Flight Std. AG
	CA	GA	R	D	ATM/ ANS	ADR		
Aerospace Medicine	X	X	X				1	X
Air Sports		X					1	X
Aviation Personnel	X	X	X				3	X
Commercial Operators	X		X				4	X
General/non-commercial Operators		X	X				5	X
Manufacturers	X	X	X	X			2	X
Training Industry	X	X	X				3	X
non-EU industry	X	X	X				4	X

- The Flight Standards AG can take over agreed tasks
- Delegates from the **Drones Community** are still needed
