

Publication of aeronautical information about environmental protection areas

(e.g., Natura 2000)

Update on the development of EASA guidelines & related safety
promotion

Current status

- Relevant clarifying material has been included in the draft NPA
 - soon to be published
- EASA is also preparing some FAQs concerning the publication of relevant information in the AIP
 - to be soon published on its website
- The above actions are considered adequate, given the nature of the reported issue
