Process Updates

Content	Update cycle
CS-23	3 years
AMC & GM to CS-23	1 year

The timeline diagram illustrates the update cycle for CS-23 and AMC & GM from 2025 to 2031. The timeline is represented by vertical bars for each year. CS-23 is shown in blue, and AMC & GM is shown in yellow. The timeline starts in 2025 and ends in 2031.

Year	Content
2025	CS-23
2025	AMC & GM
2026	AMC & GM
2027	AMC & GM
2028	CS-23
2028	AMC & GM
2029	AMC & GM
2030	AMC & GM
2031	CS-23
2031	AMC & GM

Content

- CS-23 Amdt. 6 and AMC & GM to CS-23 Issue 5
 - No changes to CS requirements
 - AMC & GM updates mostly to standard revision number and remarks
- Baseline: ASTM F3264-24
 - Most standards taken over as in F3264-24
 - Higher revisions adopted where feasible
 - One reverted revision

Points of interest

- F3115 on structural durability
- Revision reversed from F3115-20 to F3115-15 as per ED Decision 2025/019/R
- New revision under preparation

- F3532 on Protection of Aircraft Systems from Intentional Unauthorized Electronic Interactions

Status

→ Draft NPA currently in Proofreading

→ Focused Consultation – Q4 2025

→ GA.TeB

→ GA.CSTG

→ Publication – Q1/Q2 2026

→ as EAR Document
